

Dear Colleagues;

Are You In Line For The Next Trillion?

Health & wealth with integrity is the foundation for which I founded the “How To Clone A Million Dollar Holistic Health Care Practice” seminar.

Holistic (alternative) health care is expanding so rapidly in all disciplines that it necessitates rising our height of knowledge to keep pace. Dr. Paul Zane Pilzer, the great economist in his book **The Next Trillion**, says in the next nine years today’s 2 billion holistic health care industry will reach \$1 Trillion. Physical therapist, medical doctors, and acupuncturists are all going after the same patients with a great deal of zeal.

This seminar is not about money! It is about raising the height of your knowledge in order to give patients the kind of care they seek and need. It’s about achieving results on difficult cases when the patient and doctor, were about to give up. It’s about keeping up with the most up-to-date methods of patient care.

People want healthcare, the baby boomers are tired of sickness care. Pilzer says 45% of Americans want a whole person, anti-aging, health restoration protocol. They want it, they’ll get it, they’ll pay cash for it, and they will wait in line to receive it. It is vital to have a *TURNKEY* protocol for evaluation and whole person care. Those people in the 45% wellness group are demanding this approach and will go where they can get it.

We have proved this for many years in our practice. Yet in the past few months we feel we have doubled our ability to deliver incredible results. Pilzer has six-laws for unlimited prosperity. All six laws deal with the advances in technology and your ability to identify and deliver these cutting-edge advances to your patients.

As a chiropractor I have seen how structure rules function. I know D. D. and B. J. Palmer said the subluxation is the cause of dis-ease. But what is the cause of the subluxation. It can be trauma of a structural, nutritional and/or emotional nature. It can be deficiencies; inadequacies and it can be toxicities. We are bombarded at this time more than any time in history with electromagnetic pollutions, emotional stress, pesticides, heavy metals, parasites, high impact collisions, impure air, environmental pollutions etc.

We have the *TURNKEY* 10-Step Protocol with the support team to teach you the steps. With the collaborated efforts and constant research of Nutri-West, Majes-Tec Innovations, and the doctors certified in the Brimhall Protocol, a new script is being written daily. You can try to reinvent the wheel or come rolling along with us.

In Gerber’s book, The E-Myth Revisited, he states that annually up to 40% of the million new businesses that started up each year in the United States, go bankrupt their first year. By the fifth year 80% or more will be out of business. He further states the statistics that 75-80% survive and thrive if they have a *TURNKEY*, approach.

We have the big idea D. D. and B. J. Palmer talked about. We also have the rest of the story, a step-by-step protocol to help you follow: “In cloning a successful wholistic health care practice.” Our basic & intermediate class is loaded with new information. Call your Nutri-West distributor for the location of our next "How to Clone a Million Dollar Health Care Practice".

Sincerely,

John W. Brimhall, BA, DC, FIAMA, DIBAK
